EPA ID # NHD081255788

Dear Mr. Nolan:

On January 16, 2003, the Department of Environmental Services, Waste Management Division (DES) conducted an inspection of Advanced Circuit Technology (ACT). The purpose of the inspection was to determine ACT's compliance status relative to RSA Ch. 147-A and the New Hampshire Hazardous Waste Rules, Env-Wm 100-1100.

As a result of the inspection, ACT was issued Letter of Deficiency No. WMD 03-07 (LOD). Based upon a review of ACT's submittals received March 27, 2003 and April 23, 2003, DES has determined that your facility has corrected the deficiencies identified in the LOD.

Please be advised that DES will continue to monitor ACT's compliance status through record reviews and on-site inspections.

If you have any questions regarding this letter, please contact the lead inspector, Eric K. Abrams or John J. Duclos, Supervisor of the Hazardous Waste Compliance Section at (603) 271-2942. Thank you for your cooperation.

Sincerely,
